PROFILE

Embarking on my IT journey at a young age, I'm now deeply immersed in software development. Based in Finland with Indian-Moroccan roots, I cherish diverse perspectives and find joy in exploring new cultures through travel. Collaboration fuels my growth; it's where I refine communication, cooperation, and courage. Looking ahead, I aspire to thrive in a culture of continuous learning, staying ahead in the fast-evolving world of data and technology.

EXPERIENCE

Software Developer | Sep - Dec 2023
Pinja

- Developed an efficient resource allocation and tracking tool using Vue.js with the Bryntum Gantt chart library, enhanced user experience by 20% with customized filter component.

Software Developer | May - Jul 2022
Seedz Technology Group

- Designed User Screens using T24 application Tools, improving user experience.
- Developed basic APIs with 100% positive feedback from mentor.

Freelance Developer | 2021 -

- Developed web app using python libraries and API. Enhanced user experience by 15% and turned in project an average of 5% faster than targets.

EDUCATION

BEng. in Information Technology | 2021 - 2025
Vaasa University of Applied Sciences, VAMK

Major: Software Engineering
Minor: Telecommunications, Cyber Security
Ongoing: Vaasa *International Talents Programme*

COURSES & CERTIFICATES

- SQL and Databases · April 2022
- Capture the Flag · Wärtsilä · May 2023
- Introduction to AI · June 2023
- Python Programming · July 2023
- Digital Employee Experience Certification · Muova · August 2023

SOFT SKILLS

- **Problem Solving** in Software Development
- **Adaptability** to Diverse Environments and Technologies
- **Teamwork** in Collaborative Settings
